

FOR IMMEDIATE RELEASE

**EPIC Announces Re-Opening of Open Season for Crude Oil Pipeline in Texas**

**December 14, 2017** (San Antonio, TX): EPIC announced today that it would be re-opening its existing Open Season on the EPIC Crude Pipeline System which previously closed on April 15, 2017. EPIC has received sufficient interest to re-open the existing Open Season and move toward a binding period shortly after the completion of the extension. The new Open Season will allow additional interested parties to participate. Origin points for the re-opened Open Season includes Orla, Wink, Crane, Midland, Gardendale, and Helena with transportation to Corpus Christi.

Expected to be in-service by the first half of 2019, the EPIC Crude Pipeline is being laid alongside EPIC's NGL Pipeline System which is currently under construction. Dual-line Right-of-way acquisition began back in October as a part of the EPIC NGL project.

Interested parties should contact Bruce Kates 210-446-1056. The Open Season extension will begin on December 14, 2017 and will end at 12 p.m. on December 23, 2017.
